For directions to the Lawrence Berkeley National Laboratory (LBNL), please go here .

LBNL is a restricted access site. If you are coming to use the ALS, you must register with the ALS User's Office at least 1 week in advance. If you are only coming to visit the Infrared Beamlines for a few hours, contact either
Mike
or
Hans
before your visit.

If you entered LBNL through the Main Gate (Blackberry),

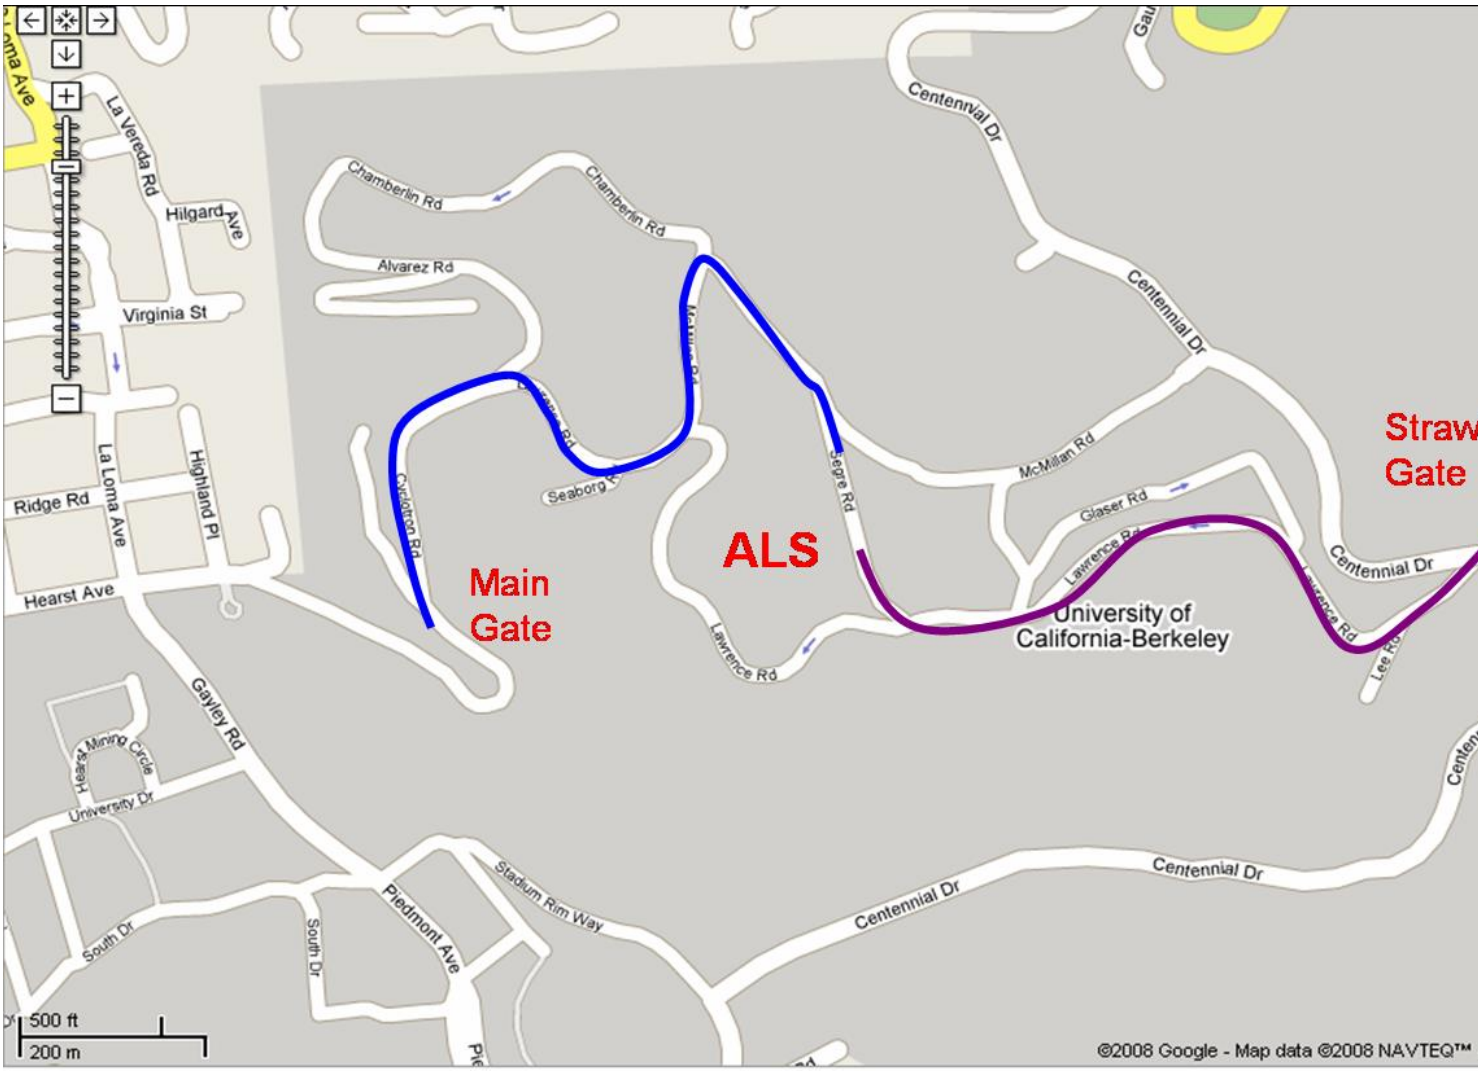
1. Proceed up the hill on Cyclotron Rd.
2. Make a slight right onto Lawrence Rd at the stop sign (approximately 0.2 miles from gate).
3. Make a slight left to continue up the hill on McMillan Rd (approximately 0.4 miles from gate).
4. Turn right at the stop sign to continue up the hill on McMillan Rd (approximately 0.5 miles from gate).
5. Make a slight right on Segre Rd (approximately 0.6 miles from gate).

If you continue to the right, the ALS will be directly in front of you. There is a small parking lot in front of the ALS, but it is usually full. There is generally plenty of parking available, along Segre Rd.

If you entered LBNL through Strawberry Gate,

1. Turn left onto Lawrence Rd.
2. At the stop sign (approximately 0.4 miles from gate), turn left to remain on Lawrence Rd.
3. Turn right onto Segre Rd (next to the fire station).

The ALS is directly in front of you. You may turn right to find parking along Segre Rd. or you may turn left to find additional parking down the hill.



For a map of the LBNL site, please go here.
