Description:

- 25 kHz to 200 MHz frequency range
- 80 dB dynamic reserve
- Time constants from 100 µs to 30 ks (6, 12, 18 or 24 dB/oct rolloff)
- "No Time Constant" mode (10 to 20 µs update rate)
- Auto-gain, -phase, -reserve and -offset
- Internal or external reference
- Two 16-bit DACs and ADCs
- GPIB and RS-232 interfaces
